Respect for the environment

Watero Sanitaryware's sensitivity to the world's ecological emergency has prompted it to place the environment at the heart of its economic, social and industrial policies.

Watero Sanitaryware is a sustainable company with regards to its industrial role and relationship with the surrounding territory. The production facility integrates harmoniously with the place where nature is considered an asset and a heritage to be protected and valued. This desire is manifested in the continuous implementation of new technology that allows using clean energy, and also in the different design options that allow the company to have less impact on the environment.

Raymon

Quality, along with precise engineering, is one of the characteristics of this company's products. The very high stability of these products is very valuable

ART COLLECTION

Rimless toilet

Rimless toilets are close by and are excellent for washing. The footrests of the toilets are medical, which reduces the pressure on the feet.

Coting Gold & silver

Coated toilets, which are mostly golden and silver in color, can help a lot in the beauty of toilets and matching with tiles and accessories.

WATER SAVING

Our WCs have a special bowl structure and are specifically designed to flush with both lower (2.5/4 litre) and typical (3/6 litre) water volumes.

By using less water, these water saving WCs benefit you and the environment. All Watero standard height wall-hung frames come with dual flush function as standard in both 2.5/4 litre and 3/6 litre options.
